Summary

Recent B.Tech CSE graduate skilled in data structures, OOP, and MERN-stack development, with hands-on experience building scalable applications and strong communication skills to deliver impactful tech solutions.

Education

Dronacharya Group of Institutions

B.tech in Computer Science and Engineering

2021- 2025

Greater Noida, Uttar Pradesh

St.Anthony's Inter College

Inter(XII)

2021

Pratapgarh, Uttar Pradesh

St.Anthony's Inter College

High School(X)

2019

Pratapgarh, Uttar Pradesh

Technical Skills

Programming Languages : Java, C, JavaScript

Frontend Technologie: HTML, CSS, Tailwind CSS, React.js, Redux

Backend Technologies: Node.js, Express.js, JWT

Databases: MongoDB,

Developer Tools: VS Code, Git, GitHub

Experience

Web Developer Intern

Uptoskills Pvt. Ltd

July 2024 – Oct 2024

New Delhi

- Developed and enhanced features for an HR Dashboard, improving employee management and system functionality.
- Implemented dynamic data fetching using HTML, CSS, JavaScript, and Express.js, ensuring seamless backend-to-frontend communication.
- Gained hands-on experience in full-stack development, strengthening problem-solving skills and code optimization.

Projects

Web3 and Blockchain Aggregator Website | React.js, Tailwind CSS, Web3.js, MongoDB

- Developed a Web3 Aggregator platform that connects users with the blockchain ecosystem, enabling real-time token tracking, project discovery, and user authentication.
- Integrated blockchain APIs using **Web3.js** and built a responsive and interactive interface with React.js and Tailwind CSS for a seamless user experience across devices.
- **Features:** Real-time token tracking, Authentication, Profile customization, Interactive UI, Project discovery, News system.

E-Commerce Platform | React, Tailwind CSS, Redux Toolkit, Node.js, Express.js, MongoDB

- Built a full-stack e-commerce web application that supports product browsing, cart management, and secure checkout using the MERN stack.
- Implemented state management with **Redux Toolkit** to handle cart operations, user sessions, and order flow efficiently, while JWT authentication ensured secure user access.
- Designed and optimized MongoDB schemas for users, products, and orders, and integrated REST APIs to enable smooth communication between the frontend and backend.
- **Features:** Product catalog, Add-to-cart, Order placement, User authentication, Redux Toolkit state management, Responsive UI, REST API integration.
